## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claim 49, 50, 70 and 71 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method for deriving control parameters for a radio link set from the control parameters of the corresponding cells. The closest prior art Toskala et al. (US 6,456,826) teaches determining the control parameters based on the cell environment. Toskala, however, fails to teach taking the lowest value of the parameters or the average value of the parameters. These features are claimed in the independent claims and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
